Au Quartier: <http://www.auquartier.nl/>

Kaboom: <https://www.kaboomhotel.nl/nl/>

## Course location:

Maastricht University, Universiteitssingel 40, 6229 ER Maastricht

Room C-1.667 Heerlenzaal (for Thursday 23 May)

Room A0.771 Tongerenzaal (for Friday 24 May)

## Directions:

By public transport: get off at the station Maastricht Randwyck, take the stairs to the upper street level. Across the street you will see the entrance of the building Universiteitssingel 40 (UNS). At the reception, please ask for directions to the lecture room.

By car: from the north A2, E25. Exit MECC, Randwyck, Academisch Ziekenhuis (exit number 55). The follow signs Universiteitssingel 40. You can park your car either in the car park of Universiteitssingel 40 (P-UNS40) or Universiteitssingel 50 (P-UNS50). In both cases, while entering the car park indicate that you are a visitor of the MERLN Institute. Then follow the signs to UNS40 and at the reception, ask for directions to the lecture room.

## Programme:

### Thursday 23 May

- 10:30-10:45 Introduction: Pamela Habibovic
- 10:45-11:30 Lecture 1: Stefan Giselbrecht *The SMART toolbox*
- 11:30-12:15 Lecture 2: Aurelie Carlier *Introduction to computational tools in regenerative medicine*
- 12:15-13:00 Lecture 3: Timo Rademakers *Fluorescence imaging in regenerative medicine*
- 13:00-13:45 Lunch
- 13:45-14:30 Lab tour: Timo Rademakers
- 14:30-15:15 Lecture 4: Matt Baker *Supramolecular polymers and ECM mimics*

- 15:15-16:00 Lecture 5: Sabine van Rijt *Nanoparticles to enhance regenerative medicine approaches*
- 16:00-16:30 Coffee/vlaai break
- 16:30-18:00 Interactive session: *Career opportunities after the PhD*
- 18:15 Bus/train to the city center
- 18:30-19:30 Guided city tour
- 19:30-22:00 Dinner at Brasserie Tapijn, Tapijnkazerne 20, 6211 ME Maastricht

### **Friday 24 May**

- 09:00-09:45 Lecture 6: Lorenzo Moroni *Introduction to biofabrication technologies and applications*
- 09:45-10:30 Lecture 7: Ron Heeren *Molecular imaging for biomaterials and regenerative medicine*
- 10:30-11:00 Coffee break
- 11:00-11:45 Lecture 8: Mireille Stijns *Targeting cellular protective mechanisms in regenerative medicine*
- 11:45-12:30 Lecture 9: Aart van Apeldoorn *Towards treatment of Diabetes type 1 with regenerative strategies*
- 12:30 Departure + lunch box
